SUMMARY

Motivated and enthusiastic Computer Science and Engineering graduate seeking an entry-level position where I can utilize my technical skills, theoretical knowledge, and passion for innovation to contribute to the development of cutting-edge software solutions. Eager to apply classroom learning to real-world challenges and continuously learn and grow within a dynamic and collaborative work environment.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript, JAVA, SQL

Libraries & Tools: React, MongoDB, Node.js, Express, Azure

Skills & Competencies: DSA, Data Analyst, Critical Thinking, Creative Thinking, Time Management, Excel

PROJECTS

Media Player

Technologies: HTML, CSS, javascript, React, node.js, Express

[Live link](#)

- Developed a comprehensive video library application enabling users to store, manage, and view their favorite content.
- Video Addition: Implemented functionality for users to seamlessly add and categorize their favorite videos.
- Watch History: Created a detailed history tracking feature, allowing users to monitor their viewing activity.

Counter App

Technologies: HTML, CSS, JavaScript, React, Node.js

[Lve link](#)

- Developed a dynamic counter application that allows users to set custom increment and decrement values, with a comprehensive history tracking feature.
- Custom Increment/Decrement: Enabled users to define their own increment and decrement values for flexible and personalized counting.

EXPERIENCE

MERN Stack Developer Intern

Nov 2023 – Present

Luminar Technolab

Kerala, India

- As a MERN Stack Intern, I worked closely with experienced developers to build and maintain web applications. My responsibilities included:
- Collaborating with the team to design user interfaces and user experiences.
- Writing clean, efficient, and maintainable code using HTML, CSS, JavaScript, React, MongoDB, Express, and Node.js.
- Conducting code reviews and providing constructive feedback to peers.
- Assisting in the deployment process and ensuring smooth operation post-deployment.

Intern

May 2021 – June 2021

Sysbreeze

Kerala, India

- Assisted in the design, implementation, and testing of AI algorithms and robotic systems. My responsibilities included:
- Participating in team meetings, project discussions, and knowledge-sharing sessions.
- Collaborating with team members to brainstorm and develop innovative AI solutions.
- Analyzing data and providing insights to improve algorithm accuracy and efficiency.

EDUCATION

APJ Abdul Kalam Technological University

Kerala, India

Bachelor of Computer Science And Engineering

Aug 2019 – July 2023

PSVPMHSS

Kerala, India

Biology Science

June 2017 – May 2019
